A day of merriment and entertainment

The 8th Nostalgische Genussmeile was a resounding success with over a couple of thousand people thronging the “mile” enjoying the ambience of this exclusive event amidst a vast range of appetising food and drink stands.

Words & Photos: Clair Southwell

As the Genussmeile was also part of some of the great events celebrating 800 years of Klosters, it was always going to be an extra special event, but it excelled all expectations! The huge effort everyone made was so impressive with delicious and varied selection of foods on all the stands, great entertainment for the children, music everywhere from Alp Horns to Yodellers to Brass Bands and more and everyone got into the spirit of the day and had a wonderful time – even the rain in the early evening did not dampen the mood with the party continuing in the Silvretta tent until the early hours.

The Rössli car park was beautifully recreated as an original Walser village square with displays and demonstrations of arts and crafts and foods from years gone by and interesting historical facts on Klosters. The costumes were brilliant, colourful, and inventive and seriously added to the whole effect of the event with fabulous prizes for the winners of the best costumes – including a helicopter ride for the Best Group won by Family Andrea Hirzel from Klosters, Best Childs costume was won by Luzia Schär from Davos and the crème de la crème prize of an overnight stay at the ultimate Castello del Sole with dinner and massages was deservedly won by Brigitte D'Arسيè from Klosters.

Thank you to all the sponsors without whose support this event would not be the great success it was and a massive thank you to the highly efficient workforce from the Gemeinde Werkhof who have a big job putting up and removing all the tables and benches, market stalls and cleaning the streets (in heavy rain) at the end. Finally, huge congratulations and thanks to the Genussmeile organising committee, helpers, all the stall holders and everyone who took part in the day - in particular, the President Andri Fasser and Vice President Anja Walter whose undeniable enthusiasm, hard work and support for this great day is exceptional!
